

# Plan and Practice a Home Fire Drill

1

Draw your escape plan.  
Know where to meet outside.

2

If possible, plan two  
ways out of every  
room.

3

Go over the plan with everyone in your home.  
Identify people who need help.

4

Push the  
smoke alarm  
button to start  
the fire drill.

5

Get out fast and stay out.

6

If there is smoke and fire blocking your way out, take your second way out.

7

Close the doors behind you when you leave.

8

If all ways are blocked by smoke, get low and go below smoke.

9

Go to your meeting place. Call 9-1-1 or your fire emergency number from a neighbor's home or from your meeting place.
